POLITICAL PARADE

By CLEM WHITAKER

The petition blitzkrieg launched by the state federation of labor in an eleventh-hour attempt to delay operation of the new "hot cargo" law and force it to a referendum vote of the people, promises to stand California right on its ears during the next few weeks.

If successful, labor's high-pressure drive to get 132,000 valid voter signatures on referendum petitions in less than 30 days will go down in the books as the most sensational political quickie in the history of the petition business.

Labor has inaugurated its blitz with a $50,000 war chest to put steam in the boilers and pep in its professional petition solicitors—and with thousands of volunteer workers drawn from the ranks of its unions.

Farm groups, merchants, civic organizations and other interests which made the successful fight at Sacramento for legislative enactment of the bill, however, are already organizing to warn voters not to sign the referendum petitions. The watchword of this counter campaign will be: "Read before you sign!"

The most bitterly-contested bill of the 1941 legislative session, the new law makes the use of secondary boycotts, or the "hot cargo" designation, illegal. It does not, however, affect the right of workers to strike or invoke the primary boycott. The bill was passed over Governor Olson's veto, with many legislators from labor districts voting for it, despite the combined opposition of the AFL and CIO. During legislative debate, it was charged by lawmakers from rural districts that the secondary boycott practice placed farmers at the mercy of city labor bosses — and jeopardized the welfare of the whole agricultural industry.

Soon after the legislature adjourned, the AFL executive committee voted against any attempt to hold up enforcement of the bill by referendum, deciding, instead, to fight the measure in the courts on the ground that it was unconstitutional. A week ago, however, the committee reversed itself—apparently on the assumption that the court attack would be unsuccessful—and voted funds for a referendum campaign.

There are likely to be many political complications in the situation if the act is submitted to a referendum vote of the people. Unless Governor Olson calls a special election, the highly controversial bill would appear on the ballot at the 1942 general election—at the same time that California elects most of its state officers. And that means a hot time for candidates as well as "hot cargo"!

Mrs. Stanley Smith, first vice president of the Campbell Union Grammar School P.-T. A. was hostess Monday afternoon to Mrs. W. F. Grattan, president and Mrs. David Sanders, second vice president, and Mrs. Milton Robertson, third vice president. They met to discuss plans for a new program for the coming years work.

HELEN ROBINSON BRIDE OF STANLEY PARKER, SALINAS

Miss Helen Robinson and Stanley Parker of Salinas were united in marriage in an informal but impressive ceremony in the Stanford chapel Saturday evening, July 26, the Rev. Joseph H. Bennett officiating.

To the music of the pipe organ the bride was escorted to the altar by her father, and attended by Mrs. Daniel Johnson, a sister of the groom. Rodney Parker served his brother as groomsman.

The bride wore an attractive beige suit with a corsage of yellow roses and bouvardia.

She is the youngest daughter of Mr. and Mrs. T. A. Robinson and a graduate of Campbell schools, with a registered nurse's degree from the Highland School of Nursing in Oakland.

The groom, elder son of Dr. and Mrs. Garth Parker of Salinas, is a graduate of Stanford university.

The young couple will spend the month of August in Salinas and in September will go to New Orleans where Mr. Parker will continue his studies at the Louisiana State School of Medicine.

Dorothy Rich Returns From Buying Trip

Mrs. Dorothy Rich of the Cam and Dot Shopp, returned last week from a 10-day buying trip in Los Angeles. She ordered the latest in the fall lines for her store and the newest shades and designes will be featured. She states the dresses are "more feminine and designed to please the men."

Sunday Mrs. Rich will motor to San Francisco to attend the Market Week there and inspect and order more fall dresses, suits and coats.

The first of September another Cam and Dot Shopp will be opened in Los Gatos.

Following extensive remodeling of the Campbell store, Miss Rachel Spradling will open a millinery department about August 15.

Name Band At Redwood City

Direct from Hollywood, Lou Waters will bring his widely-known swing band of 12 pieces to Redwood City Saturday, Aug. 9, for the second in the series of summer dances being sponsored civicallly as a benefit for the recreation fund in that community.

The first of the dances featuring "name bands," held last Saturday with Muzzy Marcellino's orchestra playing, was attended by 600 persons despite threatening and cold weather.

The pavilion is on Bayshore highway, the hours from 9 p. m. to 1 a. m.

Teamed Up for Defense

James and Richard Dahms, sons of Mr. and Mrs. Walter Dahms of South Second street and grandsons of the popular grammar school custodian, Antone Ferro, and Mrs. Ferro, and Mr. and Mrs. Gustav Dahms, are seen hauling one of the first offerings of old aluminum to the collection depot. The scene was re-enacted many times this week as Campbell youths trundled about with loads of the precious metal.—Knappen Photo.

Kiwanians Hear About Workings of Modern Banking

A. E. Duane, assistant manager of the American Trust in San Jose, explained workings of modern banking to the Kiwanis club at Tuesday's meeting. Roy Archibald, a past president of the local club introduced Duane to the members.

Next week Dr. Ernst Friedlander who is engaged in research work at the Santa Clara County hospital will tell of his "Experiences In Europe." Dr. W. I. Merrill will do the honors on that occasion.

Cambrian Group Plans September Rummage Sale

Busy workers for the Cambrian Home and School club are ready and willing to collect donations for a rummage sale scheduled for the early part of September. Mrs. Clarence Fagalde, president, asks anyone desirous of having goods picked up to call her at Ballard 7590-J, or Mrs. Martin Farnham, Campbell 314-W. No definite date has been chosen for the sale, but plans are being made for its completion during the first weeks of September.

Mrs. Jack Wright, Red Cross chairman, announces the Red Cross Sewing club will meet Tuesday, Aug. 12, at the home of Mrs. Charles S. Harper on Leigh avenue. If anyone able to meet and sew on this date will call Mrs. Wright at Campbell 4-W, it will be greatly appreciated.

Mr. and Mrs. Willard H. Van Dyke and children are enjoying a weeks outing at the coast.

S. J. Manfre Succumbs After Brief Illness

Serafino J.Manfre, resident of Latimer avenue, died Wednesday, July 23, at O'Connor sanitarium after a week's illness.

Manfre, born in Atlavilla Milicia, Italy, was 51 years of age, and had been a resident of Santa Clara county for more than 40 years.

Some years ago he built an attractive house on Campbell avenue for a home, but later sold it to Dr. F. R. Anderson.

He was a veteran of the World war and a member of San Jose Aerie No. 8, F.O.E.

Surviving are his widow, Mrs. Jeanne Manfre, a daughter, Mrs. Anita Johanson; a son, Sam Eugene Manfre, and two sisters, Mrs. Caterina Abinante of San Jose, and Mrs. Vincenza Lamarca of Italy.

Funeral services were held Saturday morning with six nephews serving as pall-bearers: Sam, John and Nuncy Abinante, Antone Bruno, Eugene Caselli, and Sal LaConde.

Interment was in the Santa Clara Catholic cemetery.

Les Hetcht of San Rafael is the new owenr of the Double B restaurant having purchased the business from Mr. and Mrs. Ben Andres. Mrs. Andres will leave Aug. 15 for Alaska and wil lbe follwed in November by her husband and daughter. They have obtained government positions there.

Dr. and Mrs. Wyland R. Morgan and guests witnessed the Ice Follies Monday night, and Mr. and Mrs. Ethan Lanphear attended on Tuesday night.

ALUMINUM DRIVE NETS TRUCKLOAD

Campbell Boy Scouts concluded a successful aluminum drive Monday evening with a house-to-house collection.

Both Campbell troops, generaled by George E. Jeffers and Berkeley Gilson participated and deposited their stores at the scout hall on North Third street and at the Campbell cleaners.

Tuesday evening Walter Silberbauer and Jack Murdock loaded it into the Campbell Water company truck, which was filled to capacity, and took it to San Jose to the general depository.

The boys, their leaders, and the citizens who were instrumental in promoting the drive are appreciative of the cooperation of the housewives and any others who contributed to the success of this defense project.

Women's Society To Give Luncheon

The Women's Society of the Methodist church will give a luncheon in the William Lloyd gardens at 1 o'clock, on Aug. 13, to which the public is invited.

There will be a charge and reservations may be made singly or for tables of four or more.

No planned program will be given but those who wish are asked to bring games, or sewing, or spend the afternoon visiting.

For reservations call Campbell 5-F-2 or Campbell 308.

Mrs. Walter E. Krohn of San Francisco spent Sunday here with her mother, Mrs. Edna F. Smith, in celebration of their dual birthday.

"TRAIL DAYS" AT LOS GATOS BIG EVENT OF WEEK

Los Gatos, July 30—Pioneer atmosphere will be revived, along with modern sports, in Los Gatos "Trail Days," Aug. 1, 2 and 3. In the brilliantly illuminated Los Gatos Bowl, before a tumbling cataract of water, "Pageant of the Hills," by Owen Atkinson, will be presented by a large and brilliant cast, with the role of Carmen, fiery senorita taken by a real 18-year-old descendant of the Dons, Consuelo Ashe, Mills college student and daughter of Mr. and Mrs. Gaston B. Ashe of Los Gatos and San Francisco. "Pageant of the Hills" will be given at 8 p. m. Friday and Saturday, with a ten-cent admission charge for children on Friday evening. It is sponsored by the chamber of commerce.

Friday and Saturday evenings will be marked, too, by a street carnival, supervised by the junior chamber of commerce, with a big street dance Saturday evening, with music by Dude Martin and his Round-Up Gang. Saturday evening, at 9 o'clock there will be a pyrotechnic display at the high school campus.

Many of the finest horses in this part of the state have been entered in the Los Gatos Gymkhana association's horse show Sunday afternoon at the newly completed gymkhana grounds at the foot of Saratoga avenue. The program, at 2 o'clock, will be preceded by a parade of several hundred riders in costume. The riders will gather at 12:30 at the town hall.

Immediately after the Saturday evening production of the pageant, there will be a brilliant pyrotechnic display on the nearby high school campus.

The three-day celebration will be opened at 4 p. m. Friday with a "kiddies parade" through the business section, ending with an ice cream party at the town hall. Saturday afternoon there will be a pet show, with trophies for the winners, at the gymkhana grounds.

Arrangements are being made for a sacred concert Sunday evening in the pageant grounds, when it is hoped the famous Southern Pacific 50-piece band can lead in the singing of hymns.

Will Sing at "Trail Days"

The Campbell quartet will be featured on the Trail Days program in the Los Gatos bowl, both Friday and Saturday evenings, and Lloyd Nelson will also have solo numbers.

Composing the quartet are Nelson, J. E. Murdock, C. P. Klassen and Axel Granstrom, now of Los Gatos, but for several years of Campbell.

THE ARMY BUYS A PLANE

Just 32 years ago this week the U. S. army purchased its first airplane, a fragile contraption of canvas, bamboo and wire—forerunner of the mighty space- and time-annihilating machines which have revolutionized warfare and altered the fate of nations and empires.

On Aug. 2, 1909, the army accepted from the Wright brothers the flying ship that was the birth of an air corps now grown to tens of thousands of officers and enlisted men.

That first plane boasted a sputtering little motor of 25 horsepower. The army's newest plane today, the giant B-19, has 16,000 horsepower. The Wright plane weighed 800 pounds, and the army demanded that it show a minimum speed of 35 miles an hour. The B-19 weighs 80 tons and can fly 210 miles an hour. The Wright brothers' craft had a cruising radius of 125 miles. The huge new bomber, with a capacity of 11,000 gallons of gasoline, can fly from New York to Europe and return without refueling. The first army plane could carry two men and remain aloft for an hour. The army's new flying fortress can remain aloft 37 times as long, and in addition to a crew of ten, can carry 125 men when used as a troop transport.

Behind these figures stands the story of the growth of death-dealing sky armadas which have changed the character of warfare, which have brought civilians into the very front lines of battle, and which, for good and all, have destroyed the ancient natural barriers—rivers, seas, and mountains.

If statesmanship had progressed as swiftly since 1909 as technology, this would be a saner, happier world today.

* * * * * *

STRANGER THAN FICTION

Alice in Wonderland admittedly saw some strange sights but did she see anything stranger than this? A country united for defense, but divided by trade barriers which hinder defense? A country that wants arms production and wants it fast, but lets state customs walls stall the highway commerce that is bearing the tools, machines and raw materials of defense?

What Alice saw was fiction, but what America sees today is fact. Ohio trucks carrying defense supplies being held up two days by a neighbor state becaue of regulatory red-tape. Electric welders made in Michigan for a southern powder plant delayed 22 hours before reaching their destination. The movement of cotton from the south to be made into uniforms and munitions in northern mills; airplane parts from West Virginia to Maryland; army supplies from Washington to California, have all alike been held up for costly periods by contradictory welters of size and weight regulations, by a maze of fees exacted at customs lines. Such instances are occurring countless times daily in the midst of a call for full speed on defense.

Fact, again, proves stranger than fiction.

* * * * * *

THEY'RE AG'IN IT

Its urgency as a defense measure has won for daylight saving the support of many Americans opposed to it in the polling booth. However, it's a differnt story in British Bermuda where the legislature has also just considered daylight saving. War or no war, the standpatters in that island haven are ag'in it. Having heard opponents denounce the plan as sheer cruelty to animals—because, they said, it would deprive animals of an hour's sleep each night—the assembly thumpingly voted it down, 25 to six.

However, if their masters, burdened with two dozen times as many sleep-killing worries, can stand daylight saving, we suspect even the animals will find time for the needed amount of shut-eye.

"V" FOR VICTORY

Millions of "V" signs chalked up on walls and doors over all German ocupied territory are symbolizing the will of subjugated nations for liberty; heralding a new resistance to Naziism; signalling that those unhappy nations of a smoldering continent may rise in arms against the oppression of their conqueror.

The tremendous psychological effect of the "V" campaign in France is already seen in improved morale, according to dispatches from abroad. And it is worrying Hitler, who in his "war of nerves" and his "fear offensives" has used the principle of mass psychology to conquer and destroy.

We have no murderous war to fight here today; but we have serious internal problems that might be solved by a "V" campaign of our own.

What might be the effect on morale, on domestic peace and fair play, if every time employees and employers got together and settled their problems amicably, with no loss or damage to payrolls, jobs, property or the public, the sign of victory over dissention, bigotry and belligerence were displayed?

Public approval would create the will to display more "V's" for victory over disunity, and the more "V's," the more public approval and the faster and smoother the wheels of all our affairs would turn.

The power of mass psychology is an almost unbelievable thing. The world has seen its destructive effect in the hands of a power-mad dictator. The U.S.A. might well demonstrate that psychology can be used as well to build, to recreate and to make the world a better place to live in.

DI MAGGIO'S LUCKY NUMBER

The suggestion comes from an eminent sportwriter that Joe Di Maggio be assigned the number 56 to wear on his uniform as a special tribute to his record-breaking batting spree.

Certainly 56 is the California boy's lucky number. Not only did he hit in 56 consecutive games to establish an all-time world record; he also drove in 56 runs, and scored 56 times himself—perhaps the most amazing triple-threat performance in the history of baseball.

California's Di Maggio will go down as the greatest player of the year and perhaps of all time, with his name enshrined in the record book along with those of such immortals as Lou Gehrig, Babe Ruth and Ty Cobb.

If it were left to the vote of baseball fans there would be no doubt as to Joe's right to exclusive use of his lucky number 56. The fans would probably delight in seeing it inscribed on his bat and his hat as well as his uniform. For Joe will always be known as the boy who gave the bleachers 56 varieties of thrills all in one season.

CARE, CAUTION AND COMMON SENSE

Commenting on summer traffic casualties, James M. Carter, state motor vehicle director, declares that many people drive hundreds of miles beyond a normal day's trip every day of their vacation, and grow so weary that they neither enjoy traveling nor drive safely.

The Monday morning casualty lists throughout the summer holiday season bear witness to that testimony.

Now a new element is introduced into the safety picture—the raising of the speed limit on highways from 45 to 55 miles per hour. Whether it will be a safety factor as intended, or a danger factor as some fear, remains to be seen. The proving ground for the new regulation is the vast highway system of California, where it will now be lawfully tested out by more than two million drivers. They will not all be good drivers, and they will not all have cars easy to control at the top speed.

Hence it remains with the individual—as it always has—to determine his own safest speed under ordinary conditions and to handle his new driving liberty with the care, caution and common sense expected of a person who wants to avoid crack-ups.

OUR STATE GOVERNMENT
by GEORGE R. REILLY
STATE BOARD OF EQUALIZATION

(In a new series of articles on "Our State Government," Commissioner George R. Reilly, our member of the State Board of Equalization, plans a streamlined analysis of the most important departments of state government, and their functions. The series when complete will give a comprehensive and informative picture to our readers as to how state government in California works.)
—EDITOR

The State Department of Public Health, as its name indicates, was created to safeguard the health of California. It is administered by a director appointed by the Governor, and by the State Board of Health. Members of the board of health are six in number, serve for a term of four years, and all are physicians. This board is the controlling body of the department with the director, who also is a member of the board, acting as executive officer. In the department are six divisions; administration, communal diseases, laboratories, public health education, sanitation, and vital statistics.

This department is charged with the supervisions of all problems affecting the health of our citizens such as sanitation, food inspection, drug inspection, registration of nursing, water inspection, dental hygiene, social hygiene and similar functions. It has achieved an enviable record for its fine service in health problems. Dr. Bertram P. Brown is director.

* * * * * *

The California Department of Penology, which is headed by John Gee Clark, director, consists of five divisions, namely: prisons and paroles, criminal identifications and commutations, narcotics, and criminology, and the board of prison terms and paroles. The director acts as co-ordinator between the various divisions. He is appointed by the Governor. The duties of this department are concerned chiefly with criminal problems in the states.

DEFENSE BOND QUIZ

Q. What is the reason for buying a Defense Bond?

A. To keep America free. To show your faith and pride in your country. To warn foreign dictators that the United States is the strongest country in the world.

Q. But if I do not have enough money to buy a Defense Bond, what can I do?

A. Buy Defense Postal Stamps, on sale almost everywhere. Your post office, bank, department store or druggist has them, or can get them for you, at ten cents upward. Save enough stamps to exchange for a Defense Bond.

Note—To purchase Defense Bonds and Stamps, go to the nearest post office or bank, or write for information to the Treasurer of the United States, Washington. D. C.

AMERICA ON GUARD!

Above is a reproduction of the Treasury Department's Defense Savings Poster, showing an exact duplication of the original "Minute Man" statue by famed sculptor Daniel Chester French. Defense Bonds and Stamps, on sale at your bank or post office, are a vital part of America's defense preparations.

Swedish Star In "Anna Christie" At. S. F.'s Curran

Ingrid Bergman, distinguished Swedish dramatic star, comes to San Francisco Aug. 4 for a two weeks' engagement at the Curran theater in Eugene O'Neill's classic American play, "Anna Christie." The play is being presented by The Selznick company, under the direction of John Houseman and Alfred de Liagre, Jr.

Miss Bergman, making her first San Francisco *stage* appearance, was a star in the Swedish theater and on the continent before coming to the United States under contract to David O. Selznick. Last season, in New York, she co-starred with Burgess Meredith in a production of "Liliom" which ran three weeks longer than the original production.

Houseman, co-founder of the famous Mercury theater, and de Liagre, noted for the last ten seasons on Broadway as a producer and director of successes, have elected this as the first of the Selznick season of plays because it is such a rich vehicle for Miss Bergman's extensive talents. She acts in English, French, Swedish and German.

J. Edward Bromberg, star of The Group theater, Jessie Busley, for many years a leading woman on Broadway, and The Selznick company's new male discovery, Damian O'Flynn, are other principals in the cast.

Performances will be nightly at 8:30 (except Sunday) with the Wednesday and Saturday matinee at 2:30. The engagement will end on Saturday night, Aug. 16.

Known as Nicking

The process of making a cross cut or cuts on the under side of the tail of a horse to make him carry it higher is known as nicking.

THE BOOK MARK

by marty

The Keys of the Kingdom, Dr. A. J. Cronin's new novel.

Remember I sorta promised you that I would tell you a bit about it this week?

Well, dear readers, it seems to me, though I'm a mere slip of paper commonly known as The Book Mark, that this book is off to a swift and brilliant start. It wouldn't surprise me a bit to see it topping the "Best-Seller" list in a very short while.

Dr. Cronin, in this book, has written a deep and absorbing story of a Scots priest, Francis Chisholm, known throughout the tale as Francis. Francis' life is chronicled from his childhood through to old age. As a youngster his livelihood was meager, though not without a rich vein of humor. Laughter, chuckles and broad smiles were some of the reactions I witnessed from the last reader. Often the book was slammed shut on me in a burst of thrilled enthusiasm, and another time closed gently in sympathy with Francis in his struggles. He experienced many heartaches and tragedies, but his philosophy of life bolstered his courage. He believed that tolerance and humility were the two greatest virtues of man, with tolerance ranking first, and without a single exception he practiced what he preached.

For 35 years he labored as a missionary in an isolated Chinese village, serving them first in their bodily needs and secondly in their spiritual life. Almost every character in the book that became associated with Francis, was influenced by his never wavering belief that tolerance and humility count the most in this old world.

At no time does the author let his characters preach religion, as a specified creed, which makes the book one that will be read and loved by millions. Young and old will be engrossed by its dramatic qualities.

Believe me, one and all, you'll enjoy it immensely. I did!

Participate In Dedication Of New Church

The new Grace Baptist church at Tenth and San Fernando streets in San Jose was dedicated Sunday in a day-long series of events.

In the evening the oratorio, "The Holy City," by A. G. Gaul, was presented under the direction of C. P. lassen, who has charge of choir music for the church. Soloists taking part were Gracia Mackay, Martha Boyd of Campbell, Ruth Williamson, Rhoda Funk, Lloyd Nelson of Campbell and Howard Hazeltine.

Reginald Greenbrook presided at the organ, a Robert Morton, formerly in the Liberty theater, which has been completely rebuilt and is the largest in San Jose.

Mr. and Mrs. J. E. Murdock and children are leaving Sunday for Sebastopol to spend their vacation at the home of his mother, Mrs. Margaret Murdock.

7,000 Burrows

One Arizona prairie dog town contained more than 7,000 burrows.

PROPOSED BUDGET
(exclusive of bond moneys)
For the CAMBRIAN ELEMENTARY SCHOOL District
of Santa Clara County
for the school year ending June 30, 1942

I. PROPOSED EXPENDITURE APPROPRIATIONS FOR THE SCHOOL 1941-1942		
A. Current Expense Appropriations		
1. Administration	$ 30.00	
2. Instruction	7268.00	
3. Operation of Plant	1625.00	
4. Maintenance of School Plant	180.00	
5. Auxiliary Agencies and Coordinate Activities exclusive of transfers to other districts for tuition	1280.00	
6. Fixed Charges	320.00	
Total Current Expense Appropriations		$10703.00
B. Capital Outlay Appropriation		1000.00
C. Nonbonded Debt Service Appropriation		50.00
D. Undistributed Reserve Appropriation for 1941-1942		1000.00
E. Total Proposed Expenditure Appropriations for the School Year 1941-1942		12753.00

VII. TOTAL CURRENT DISTRICT TAXES REQUIRED		$ 52,259.63

A public hearing will be held on the above budget in the Campbell Union High school, located at Campbell on August 4th, 1941, at 1:00 o'clock p. m.
Signed: LEWIS H. BRITTON
Lewis H. Britton, County Supt. of Schools

Harry H. Fluss, salesman for the Interstate Utilities corporation, and family, are new additions to Campbell's fast growing population. They moved about a week ago to a house on Phelps avenue near Latimer.

Mrs. W. R. Coupland was taken seriously ill with a heart attack Monday night but is somewhat improved. Mrs. Gladys Carnes, who is a nurse, arrived Tuesday evening from Los Angeles to care for her mother.

Brimming with Health – Basket and Child

By BETTY BARCLAY

The first and foremost prerequisite to child health is food to build strong, straight bodies with a high resistance to ills. And the time to start this type of building is when we first have tiny lives to nourish into man and womanhood.

So suppose we go marketing for foods to accomplish just these things. Foods to build bodies, regulate their processes and protect against diseases, as well as furnish energy for the many activities of the child.

We'll want to include protective foods which contain minerals and vitamins — the so-called "must foods" — fruits, vegetables, and milk. One of the protective factors most often deficient in the average diet is vitamin C, which promotes general good health, aids in the development of perfect teeth and good bone structure, guards against tooth decay and gum troubles, and prevents scurvy.

Oranges and lemons are perfect sources for this vitamin, also provide calcium, iron, and phosphorus, as well as such dietetic values as vitamin A, B and G, alkaline salts, fruit acids, and sugars. Since vitamin C is not stored by the body, it must constantly be maintained as the child grows. Daily orange juice is one of the easiest ways to provide it. Children in below-teen ages require almost twice as much of this vitamin in proportion to their weight as do adults. In fact, according to research, for every ten pounds of body weight, at least one and six-tenths ounces of orange juice is recommended for the normal daily requirement to provide the sole source of vitamin C. Growing, active children who need more of the benefits from this vitamin may consume a larger amount.

Besides these "must foods" (fruits, vegetables, and milk), we'll want eggs, meat, finely ground nuts, bread, cereals, butter and other fats, sweets in small amounts, and fluids. The basket will be brimming with essentials for perfect child development. And we must not forget in our search, there are some items we can't carry in a basket but must be included on a list for health; such as — fresh air, exercise, cleanliness, rest, and pure water.

After the foods and other essentials are selected, the problems of proper proportions, combinations, and regularity arise. Once these are established, the child's health and happiness are well provided not just for the day but in a sense for years to come.

Between Meals: Oranges are so filled with important health benefits, that they may well be eaten between meals or before going to bed. A glass of orange juice or the "easy to peel" fruit is handy for these purposes. Children do not need to be urged to eat more oranges or drink more orange juice. The tempting orange taste is a favorite from the start. A popular combination is:

Orange Egg Milk Shake

1 cup orange juice
1 cup milk
1 egg, slightly beaten
1 tablespoon sugar
1 teaspoon grated orange peel

Beat or shake well with ice to chill. Serves 2.

Mrs. Lillian Voge, Campbell librarian, received a cablegram the first of the week informing her that her son, Noel, who has been in several European countries during the past few years, is now in Lisbon.

Santa Clara County fair dates have been set for Oct. 11 to 18 inclusive as announced by the fair association directors. Campbell is represented on the board by S. N. Hedegard and George C. Payne.

LEGAL NOTICES

NOTICE TO CONTRACTORS

Notice is hereby given that sealed proposals for the construction of an addition to the Campbell Union Grammar School will be received by the Campbell Union Grammar School District at the office of the Board in the Campbell Grammar School, on the N. E. corner of Campbell Ave. and Winchester Road, Campbell, Calif. on or before 8:00 o'clock P. M. of the 31st day of July, 1941, in accordance with the plans and specifications for said work on file in the office of said Campbell Union Grammar School District.

Plans and specifications may be obtained at the office of Binder & Curtis, Architects, 35 West San Carlos Street, San Jose, Calif. A deposit of $15.00 will be required for copies of said plans and specifications. Said deposit will be refunded upon return of the plans and specifications in good condition.

Each bid must be accompanied by a certified check or bid bond in the amount of ten percent of the amount bid as liquidated damages in case the successful bidder fails to furnish satisfactory bonds within ten days from the date of award. Certified checks shall be drawn on some reliable bank and made out in favor of the Campbell Union Grammar School District.

All bids shall be addressed to the Campbell Union Grammar School District and shall be enclosed in sealed envelopes and plainly marked "Bid for Addition to Campbell Grammar School."

Bids will be received as aforesaid and will at said time and place above mentioned be opened in public.

Said Campbell Union Grammar School District reserves the right to reject any and all proposals and to waive technical informalities in any proposal.

Preference in employment of labor must be given to bona fide residents of Santa Clara County.

Workmen employed on the work must be paid in accordance with the scale of wages adopted by the Campbell Union School District, as follows:

Craft	Rates Hour	Day
Asbestos Workers	$1.25	$10.00
Brick Layers (6 hour day)	1.25	10.50
Carpenters	1.25	10.00
Carpet and Linoleum Workers	1.12 1-2	9.00
Cement Finishers	1.25	10.00
Concrete Mixer (except paving type)	1.25	10.00
Electrical Workers (Overtime double)	1.50	12.00
Glass Workers (7 hour day)	1.21 3-7	8.50
Gradermen	.80	6.40
Hod Carriers (6 hour day)	1.50	9.00
Housesmiths, Architectural Iron	1.31 1-4	10.50
Ironworkers, Reinforced Concrete	1.31 1-4	10.50
Laborers	.81-14	6.50
Lathers (6 hour day) (Overtime double)	1.60	9.60
Millmen	1.06 1-4	8.50
Millwrights	1.25	10.00
Operators, Hoist on building construction	1.48	11.84
Power material loader and conveyors	1.61 1-4	12.92
Power Shovels and Equipment with shovel type controls, up to and including 1 yard	1.75	14.00
Power Shovels, etc. over 1 yard	2.00	16.00
Tractors with mechanical equipment attached	1.61 1-4	12.92
Compressors on construction work	1.34 1-2	10.76
Painters, (Overtime, time and one-half) (7 hour day)	1.35 5-7	9.50
Plasterers (Overtime, double, 6 hour day)	1.75	10.50
Plumbers, (Overtime, double)	1.50	12.00
Pipe Welders (Overtime, double)	1.50	12.00
Roofers (Overtime-time and one-half	1.25	10.00
Shade and Drape Hangers	.87 1-2	7.00
Sheet Metal Workers	1.37 1-2	11.00
Dump Truck Drivers, (Overtime double)		
2 yards water level or less per day	.87 1-2	7.00
3 yards water level or less per day	.93 3-4	7.50
4 yards water level or less per day	1.00	8.00
Transit Mix Drivers,		
2 yards water level or less per day	.93 3-4	7.50
3 yards water level or less per day	1.00	8.00
4 yards water level or less per day	1.06 1-4	8.50
Tractor Drivers up to and including 36 HP (8 hours per day)	1.06 1-4	8.50
Welders (Pipe)	1.50	12.00

Legal Holidays:

New Years Day, Admission Day, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Armistice Day, Thanksgiving Day, Christmas Day, Saturdays and Sundays where crafts work a five day week, and/or where schedule of crafts so provide, overtime shall be paid at the rate of double time, except where otherwise provided.

Engineers and Operators shall receive double time for overtime. Carpenters-Overtime for first four hours after the first eight hours, time and one-half, and thereafter, double time.

Laborers, ordinary overtime, time and one-half for first four hours after first eight hours. Double time thereafter, and on Saturdays, Sundays and Legal Holidays.

Ordinary overtime, one and one-half times the rates above set forth, except as herein noted.

Foremen are to be paid not less than $1.00 more than the wage for the particular craft above mentioned.

OUR HIGH SCHOOL

INDUSTRIAL ARTS
Steve Casaleggio
M. F. Hughes

The industrial arts program as offered at the school includes woodshop, general shop, auto mechanics, mechanical drawing and Farm mechanics. The program aims to teach boys the proper use and care of all the hand tools commonly used in the various vocations and at the same time give him an idea of what he is to learn if he expects to follow any of the mechanical trades.

In industrial arts the boy has a chance to find out for himself if he can use his hands and mind skillfully enough to consider the trades as a vocation and to discover for himself if he is interested in such work. As a further aim the program attempts to develop the handyman activities and desirable hobbies for spare time, which, in turn, can save time and money on odd jobs that so often occur around the home.

Upon entering a class in industrial arts a boy is taught the primary fundamentals in care and proper use of the tools which includes adjustment and sharpening. He learns to use the various tools by actually performing projects (jobs) that makes the handling of the tools necessary. After fulfilling a specified list of requirements, the student is free to plan and carry on his own project under advice of the instructor.

In the industrial arts program there is a great deal of related information which is taught in connection with the regular class work. For example: the mathematics involved; lumber, iron, abrasives, paints, batteries, gasolines, oils, nails, screws, and many other topics are closely related to shop courses.

Essentially the learning process involved here is learning by doing, which is like saying, "experience is the best teacher."

BLUE, CRANKY NERVOUS
ON CERTAIN DAYS?

Read how thousands go smiling thru this distress!

You women who suffer monthly functional disturbances causing pain of irregular periods, cramps, headache, backache, nervousness and weakness—should find Lydia E. Pinkham's Vegetable Compound *simply marvelous* to relieve these symptoms.

For over 60 years Pinkham's Compound has helped hundreds of thousands of women—not only to help relieve this distress but also to help build up resistance against symptoms of functional monthly disturbances. Over 1,000,000 women have reported remarkable benefit. Lydia Pinkham's Compound is WORTH TRYING!

Extravaganza Drawing Record Crowds Nightly

The beauties of grace and rhythm, blended with skill and masterful showmanship, are being unfolded nightly by the Ice Follies of 1941, at Winterland in San Francisco.

Different from a stage production because the entire ice rink is the stage and different completely from last year's sensational show, the new Ice Follies has attracted capacity audiences since its San Francisco opening this year.

The dazzling ice review first appeared in the Bay area two years ago, when 400,000 persons saw it during a period of seventeen weeks, an all-time box-office record. A similar number of people saw it last year. Just returned from a triumphant tour of the east, the new Ice Follies records show more than 1,500,000 attendance in the past year.

Most elaborate production feature is the "Moonlight Vision," which introduces the 1941 edition of the ice extravaganza.

Costumed in semi-transparent hoop skirts, the number has a modern atmosphere and yet is an ideal opening built around flowing rhythm and easy grace. Using large meteorological balloons, the girls cover the entire ice surface with delicate patterns and thrilling formations as the Moonlight Vision progresses. It is skated to the music of "Waltzing with a Moonbeam," written especially for Ice Follies of 1941 by Stanley Cowan and Bobby Worth, youthful Hollywood song writers. This is the first time in figure-skating history that the music for a group number was written to the routine rather than having the routine patterned to fit stock music. A special arrangement of the music for orchestra was made by George Hackett of Hollywood.

Featured as a specialty within the Moonlight Vision episode are Valerie and Jenna. Costumed as Romeo and Juliet the two graceful girls glide smoothly between ever changing formations of the 24 Ice Follettes as they do an expert double. Valerie Fink has been featured in previous editions of the "world's greatest musical revue on ice" while Jenna Schulte is a comparative newcomer, having joined the troupe a year ago.

Mr. and Mrs. Robert Weaver and Mr. and Mrs. Richard Knappen and son, James, attended the Ice Follies in San Francisco Friday evening.

Mrs. H. G. Lillingston and daughter Miss Patsy Ann, who have been visiting Mrs. Lillingston's mother, Mrs. Hattie Baugh, and her twin sister, Mrs. Merlin Bohnett, left this morning for Los Angeles. They will spend a week there with another sister, Mrs. W. W. Wells, and family before returning to their home at Chillicothe, Ill.
